EXAMINER'S AMENDMENT

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/4/2009 has been entered.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Luce on 1/13/2010.

The application has been amended as follows:

In the specification:

A substitute specification excluding the claims is required pursuant to 37 CFR 1.125(a) because Applicant has amended the specification on 2/11/2005, 12/18/2006 and 6/5/2007. It will be convenient for the Patent Office to reflect all the changes applicant made in the above mentioned amendments.

A substitute specification must not contain new matter. The substitute specification must be submitted with markings showing all the changes relative to the

Art Unit: 3721

immediate prior version of the specification of record. The text of any added subject matter must be shown by underlining the added text. The text of any deleted matter must be shown by strike-through except that double brackets placed before and after the deleted characters may be used to show deletion of five or fewer consecutive characters. The text of any deleted subject matter must be shown by being placed within double brackets if strike-through cannot be easily perceived. An accompanying clean version (without markings) and a statement that the substitute specification contains no new matter must also be supplied. Numbering the paragraphs of the specification of record is not considered a change that must be shown.

In the Claims:

Replace "A process for the operation of a", claim 36, line 1, with -- The --.

Replace "process", claim 37, line 1, with -- bottoming device --.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance: Boger et al. in combination with Pedigrew fails to disclose the claimed gluing device with an application head, including: regarding claims 1, 38 and 43 define an embodiment of the bottoming device having an application head with a glue circulation channel that provides for circulation of the glue within the application head, the glue circulation channel including (i) a first transverse channel and a second transverse channel each extending along the length of the application head in the (y) direction, and (ii) a connection channel extending across the application head in the (x) direction, the connection channel connecting an end of the first transverse channel to an adjacent end of the second

Art Unit: 3721

transverse channel, the glue circulation channel providing for glue flow through the first transverse channel, across the connection channel, and through the second transverse channel to drain from the application head.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hemant M. Desai whose telephone number is (571) 272-4458. The examiner can normally be reached on 6:30 AM-5:00 PM, Mon-Thurs..
